JONESVILLE, MI 49250

Superintendent News

THANK YOU TO BOB AND ELLEN THOMPSON

As we head into November, it is time for us to give thanks for all of the gifts we have to enjoy. In the past year, Jonesville Community Schools received a tremendous gift of generosity from one of our alumnus Robert Thompson who graduated from Jonesville High School in 1950 went on to build a very successful company, Thompson-McCully. After the sale of their company, Bob and his wife Ellen started a foundation for the development of public school academies in Detroit and to provide GAP Scholarships for working families. They have since expanded their efforts and have adopted four small school districts and have provided them with state of the art instructional technology equipment and the GAP scholarship. Jonesville Community Schools is extremely appreciative to have been adopted by the Thompsons.

The Thompsons allowed us to dream of the possibilities for our students and design programs that would provide them with phenomenal opportunities. All elementary students were provided with an iPad and all secondary students received a Chromebook to enhance their learning. In addition to the devices, the Thompsons provided quality instruction in teaching with technology to our staff through Communications by Design. Our teachers have enjoyed the training and we are continuing to receive training this year as well. We are hopeful that you are seeing the benefit of the devices. We know the students love them. The Thompsons have also ensured that our wireless capabilities are top notch so that all of our students can be using their equipment at the same if necessary. They even put wireless on our busses! Our athletes can do their homework while going to or from a game and kids can get their homework completed on their ride home from school.

In addition to the individual student devices, we were able to purchase CNC machines, an industrial robot, multiple scroll saws and band saws and even a table saw that won't cut off fingers, Lego robotics K-12 and 3D printers. We spent time talk-

ing with area industries and had many discussions about the skills that students need to find good, high paying jobs in this community and beyond. The Thompsons listened to our needs and provided us with all of the equipment necessary to get our students important hands-on-skills. We are also working on setting up internships with area companies so our students can get a real life experience in local companies. This would not have been possible without the generosity of the Thompsons. Our students are so excited to work on the new equipment every day and are excited to build and create at every grade.

The district was also able to update all staff computers and our computer labs with new desktop computers. We even added a Mac lab at the high school along with new cameras and equipment for video broadcasting. Students are making documentaries and working on presenting polished announcements for use at the school. Through these activities they are learning how to use the cameras, edit using Final Cut Pro, write final copy and improve their stage presence. This is another career field that students can explore while attending JHS thanks to the Thompsons.

In addition to all of these gifts, the Thompsons gave our students the GAP Scholarship for Working Families. The purpose of this scholarship is for Jonesville students who plan to attend a 4-year public university and provides a means for students who might not otherwise be able to complete a four year course of study because of economic reasons. It is a four year scholarship commitment to cover the costs that aren't met by other scholarships or aid and the family's expected family contribution. This scholarship means that all students who attend Jonesville schools should be able to afford college. So study hard, use the new tools you were provided and learn all you can. Nothing is standing in your way thanks to Bob and Ellen Thompson!

Sincerely,
Chellie Broesamle

MI HEARTSafe School Award

Sudden cardiac death of the young (SCDY), or sudden unexplained death, occurs when a young, apparently healthy person dies suddenly from a cardiac arrest or an unknown cause. (SCDY does not include deaths related to drugs, trauma, suicide, homicide, or long illness.) SC DY claims the lives of more than 300 Michigan children and young adults between the ages of 1-39 years annually. Many of the causes of SC DY are inherited conditions. In 2007, when Michigan adults were asked about their family history of SC DY, about 1 in 15 (6.3%) responded that at least one biological family member had a sudden cardiac death, or sudden unexplained death, between the ages of 1 and 39. This number was even higher for Michigan adults who were black; 1 in 9 (11.2%) reported a family history of SC DY. For those who have suffered the loss of a family member due to a sudden, unexplained cardiac arrest, prevention of SC DY is of utmost importance. Evaluating your "heart health", including personal and family history that may point to an inherited cause of SC DY is currently the best way to identify those at risk and prevent sudden cardiac death. Many steps for preventing SC DY have been identified, beginning with increasing public awareness of SC DY risk factors. Another step is to increase community knowledge of cardiopulmonary resuscitation (CPR) and the use of automated external defibrillators (AEDs). The Michigan Alliance for Prevention of Sudden Cardiac Death of the Young (MAP-SCDY) works to prevent death due to sudden cardiac arrest by encouraging communities

to be prepared to provide the best possible response to a cardiac emergency. The MI HEARTSafe School Award Program was created to support school communities' efforts to prevent SC DY by screening athletes for inherited sudden cardiac arrest syndromes and increasing the awareness of how to recognize the signs of a sudden cardiac arrest and respond quickly.

Between 2003 and 2012 in Michigan, there were 2,590 young individuals between 1 and 39 years of age who died of sudden cardiac death. Of those, 214 were between 6 and 19 years of age. In its third year, the MI HEARTSafe Schools designation is Michigan's commitment to reducing the number of sudden cardiac death in our youth. In the first two years of the program, 162 schools were designated as MI HEARTSafe Schools in Michigan.

On Wednesday, Oct. 12, the Michigan Departments of Health and Human Services (MDHHS), and Education (MDE); Michigan Alliance for Prevention of Sudden Cardiac Death of the Young (MAP-SCDY); Michigan High School Athletic Association (MHSAA); and the American Heart Association (AHA) awarded 105 schools in Michigan with the new MI HEARTSafe School designation which recognizes schools that are prepared to respond to cardiac emergencies.

Jonesville Community Schools has worked hard to make sure that our schools are prepared to respond to

cardiac emergencies as well as any other type of medical emergency. We have "Comet Response" teams in each building who have been trained in CPR and first aid and respond as needed for emergencies. We have an AED in every building as well as one that travels with the athletic trainer. We have practice drills throughout the school year to practice our skills and work through any potential road-blocks to providing the quickest response for our staff and students in need.

Jonesville Community Schools (Jonesville High School, Jonesville Middle School and Williams Elementary) received their honor as a MI HEARTSafe School at the School Board meeting on October 24, 2016. Gwen Fosse, a member of the Michigan Alliance for Prevention of Sudden Cardiac Death of the Young (MAP-SCDY), and the coordinator of Project ADAM-Michigan was on hand to present the award to our District Health Coordinator/School Nurse, Tina Varney, RN as well as the building principals - Dustin Scherer, Bryan Playford, Josh McDowell, and Ryan Grimm. It is reassuring to know that our children are in the hands of staff that care so much and are ready to respond during life-threatening situations.

If you would like more information or to sign up for a CPR class please contact Tina Varney, RN at 517/826-7114.

Williams Elementary School News

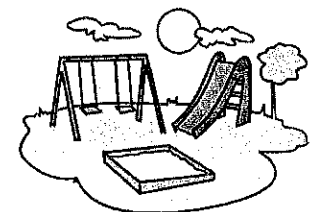

BOOK FAIR

Williams Elementary PTA hosted another very successful Book Fair in the week of Parent/Teacher conferences. It was heavily attended by our community. We would like to thank everyone who came. Because of you our PTA was able to purchase more good books for the classrooms. Also, the parents had a chance

to purchase books off a teacher wish list for their child's classroom. Many teachers were surprised to see how many books parents donated. We truly do have the best parents in the county. When push comes to shove they are always ready to help. At the Book Fair the PTA had a friendly grade level competition. The students were encouraged to bring in change or dollar bills to put in their grade level marked containers. Whatever grade level raised the most would get to watch their teachers get pie in the face. In the end, the 5th graders won and Mr. Stroble, Mr. Maxwell, Mrs. Wilson, and Ms. Walker got pie in the face. This took place on a Friday at the end of the day. The 5th graders had an excellent time watching their teachers getting pie in the face.

PLAYGROUND

Williams Elementary's teachers, staff, and students are teaming up with our PTA to raise money for a new playground. All of our monthly Dollar Day money raised by students will go to the new playground. Our new Fall Fundraiser was a success as well and the PTA will be putting a portion of that money towards the playground. If you see a PTA member, please make sure to thank them. They work so hard for our staff and students.

Williams Elementary School News Cont.

HALLOWEEN PARADE

On Monday, October 31st our school had a Halloween Parade. The office staff dressed up like the Wizard of Oz characters. Mr. McDowell and Mr. Grimm led the parade. The parade started in the K-Prep classrooms and then went to Kindergarten and so on. The K-Prep through 2nd graders eventually were in one big line going in and out of every lower elementary classroom. The 3rd-5th graders and their teachers stood outside their classrooms so the parade of K-Prep through 2nd graders could see their costumes and vice versa. Fun was had by all!

3RD GRADE

The 3rd grade classrooms participated in the annual pumpkin caper investigation. We estimated and measured a pumpkin's height, weight, diameter, circumference, number of lines, number of seeds, and floatation. The students learned many new interesting ideas about pumpkins as

well as evaluated the various conjectures. For example, if the circumference is larger, will the pumpkin have more seeds? Ask a Williams Elementary 3rd grader and they will use data to prove or disprove the statement. A big thank you to the volunteers who donated time to help or pumpkins to help with the learning experience.

Service Learning Project

First graders learned a great deal about Halloween Safety from volunteers during Safetyville. Consequently, they wanted to share what they learned to help others. They decided to help the Kindergarten be safe on Halloween night. Each first grader sewed a trick or treat bag for a friend in kindergarten. They then decorated the bags with glow and the dark paint so that the students would be visible during the evening hours of Halloween. Students then practiced reading and describing how to stay safe. Each first grade classroom visited a Kindergarten classroom in which they worked one on one with a younger child, reading and completing a book on Halloween safety. We think we have a lot of future teachers! The first graders loved working with their student explaining that they need to have candy checked, wear reflective clothes, and stay with their parents. It was such an enjoyable adventure for all involved

SAFETYVILLE

First and second graders learned a great deal during Safetyville. Volunteers spent the morning teaching the children how to be safe at home and within the community. The

students had hands on training on how police officers keep us safe. We had two officers present information on how to stay safe. Officer Gardner shared the difference between a good stranger and a bad one and what to do if a stranger approached. Former police officer and fire fighter Don Lawless shared how to reach a policeman and report an emergency. Dave Wright and Roger Strait demonstrated the correct space you should keep between the student, the road, and the bus. Then they practiced crossing the street to get on the bus making sure to watch for the signals. They also learned how to stay safe while riding the bus. We also learned road safety from our crossing guard, Kathy Kelley. The kids learned how to cross streets safely and follow road signs. Then they were able to drive their vehicles along an inside track. Mrs. Varney, registered nurse, taught the children how to be safe from germs. They learned how to cover a cough and wash their hands thoroughly to avoid becoming sick. Mrs. Bolenbaugh, food service director shared safety tips dealing with food. Discussing how they handle food in the cafeteria to keep them safe and how they should be aware of allergies. In addition, the students discovered how to keep their mouths safe from germs from Miss Erin, hygienist at Mrs. Dow's dentist office. The kids all will be begging to brush their teeth in order to keep a healthy mouth. We were also treated to seasonal safety training which included Halloween Safety from Mr. McDowell warning the children to wear reflective clothing, stay with an adult, and have their candy checked before eating it. Mrs. Shaerer taught us to stay clear of fire arms with the help of Eddie Eagle. They all chanted, "Stop! Don't Touch! Leave the area! Tell an adult! The students said "it was the best day ever". Williams' Elementary is very lucky to have such a supportive community.

AYSO SOCCER

If you have a young soccer enthusiast at home, our area provides opportunities to play at a variety of skill levels.

For those who want a fun, non-competitive playing environment the Hillsdale County AYSO is the perfect entry point. Practices are held once or twice a week in Jonesville, fees are low, parents are coaches, and refs are volunteers.

If your young futbol lover shows soccer potential and/or wants a more structured and somewhat more competitive environment, the Hillsdale Soccer Club is worth looking into. Coaches tend to have some soccer knowledge, there's a developmental curriculum, and eventually, the teams play similar teams in towns like Tecumseh, Adrian, Jackson, and Brooklyn. Fees are reasonable, but may cost more than \$100 for kids older than 9 or 10 to help pay the referees. Younger kids learn, practice, and play against each other for the first couple of years.

For players of middle school age, the next step is to make a choice about level of competition and how far to go to face that competition. For mid-level play, consider the Hanover-Horton Soccer Club, where fees still usually fall under \$200 and games are usually within a 45-minute drive.

For top-level play, choose Rush Jackson. Playing for Rush requires a lot of commitment from both players and their families. The fees (for uniforms, coaching, and field rental) can easily reach \$1,000, and away games can be as far as Grand Rapids or the Detroit suburbs. While the time and money commitment may seem daunting, players who show college potential are generally competing at this level.

At the high school level, the Jackson Area Club Soccer team (JACS) offers a budget-friendly (still under \$300 for now) option for players who want to work on their game to compete for varsity spots.

Practices and home games are in Jackson, but away games might involve some travel.

Top-level players looking for conference and district honors or who hope to catch the eye of college coaches should consider Rush Jackson. Again, those fees can seem exorbitant, but the coaching is top-notch and players have the opportunity to play against the best in the state. The senior players often get the chance to scrimmage against college teams, giving them free and valuable exposure to college coaches.

Over all, the area offers a nice variety of options for both the family budget and the family calendar. A quick search of these clubs on the internet can lead you to the website or Facebook page of the organization that is right for you.

.....

BUDDY READING

The Buddy Reading program at Williams Elementary School is celebrating because we have filled ALL 128 slots with caring mentors from all over Hillsdale County! In the 17 years that Buddy Reading has existed, there has been one other time where all the slots were filled with volunteers. Buddy Reading is a one-on-one reading program using caring volunteers in the community as mentors. The goal of the program is to assist students who may be good readers but could use additional help to be more successful readers and confident students. The program focuses from kindergarten students through third grade. The program utilizes parents, grandparents, retirees, employees, college students and also high school students!

At this point, the program has approximately 104 volunteers who assist each week from Monday through Thursday

mornings. Twenty six of those volunteers are college students from Hillsdale College and twenty three mentors are students from the high school. Mrs. Monville, a teacher from the high school, has been having various students from her class participate over the last four years! For the first time, Ms. Hogan brings all 14 students from her Wellness class to participate this year as well! Mentors, teachers and students have ALL benefited from the Buddy Reading program!

It is still not too late to be a volunteer in the Buddy Reading program if you are interested in making an impact on a child's life! The program is always fluctuating and looking for volunteers who care about children! Some mentors are only able to volunteer the first semester so vacant slots will be available after the Thanksgiving holiday. **If you are interested and/or have questions, please contact Kathy Kelley at 849-9175.**

Angel Tree

Please visit the angel tree at the front entrance of Williams Elementary. We are asking for toy and winter coat donations for students and families in our school district.

All donations are needed by December 9th and can be given to Mrs. Stroble or the elementary office.

If you have any questions please contact Jessica Stroble by email at jstroble@jonesvilleschools.org or by phone (517) 849-9175.

Williams Elementary School News Cont.

Mileage Club

Williams Elementary has had a Mileage Club for about 12 years now increasing our miles walked/ran every year. Last year we walked over 14,000 miles! This year we are participating in the Billion Mile Race. This nationwide initiative is sponsored by the New Balance Foundation and Tufts University with a goal of having the nation's students complete 1 BILLION miles this school year. Participating in this

program makes us eligible for grants to support our walking program as well as prizes and incentives throughout the school year.

As part of our participation in this program we held a contest for students in grades 1-5 for the best response to "I participate in the Mileage Club/New Balance Billion Mile Race because..." The winner was Reagan K. from Mrs. Rogers's 4th grade class who responded "I participate in the Mileage Club/New Balance Billion Mile Race because I personally have always

loved to run. When I am running I feel like an amazing and incredible person! Running is not about winning, it's about having fun and feeling great! Reagan chose a Mileage Club t-shirt as her prize. Congratulations Reagan! We are off to a great start already logging over 3,000 miles since the beginning of the school year! You can track our progress by going to <http://billionmilerace.org/school-public?aid=485876>

The Mileage Club would like to thank the Williams Elementary PTA for their generous support of this program providing funding for prizes for the students! **Anyone interested in donating to our program please contact Tina Varney at 517/826-7114.**

Jonesville Middle School News

OUTDOOR ADVENTURE CLUB

The JMS Outdoor Adventures Club is off and running already this year! Mr. Cieslinski and the Outdoor Adventures Roundtable have already offered a disc golf activity at Owens Park next to Baw Beese. Seventeen students participated in this activity, which started with some basic instruction about the game, practicing at JMS, then playing on the disc golf course at the park. This year our students will also have the opportunity to build a cedar-strip kayak during WIN time and after school on Wednesday's from 2:50-4:00 p.m. This will begin sometime in November. Last year the group built a cedar-strip canoe that will be on display at the school soon! The OAR will be planning many more outdoor learning experiences for our students for each of the seasons for ALL JMS students to take part in!

**NEW
STUDENT
LUNCH**

JMS welcomed 22 new students to our district this year! On Friday, September 30, we celebrated their choice to be Comets with a Main Street Pizza lunch in the library hosted by Mr. Playford, Mr. Swihart, Mrs. Smith, & Superintendent Broesamle. It was a great opportunity to check in with them to learn more about where they are from and how their transition to JMS has been during the first month. The feedback was very positive and their perspectives offered some unique insights!

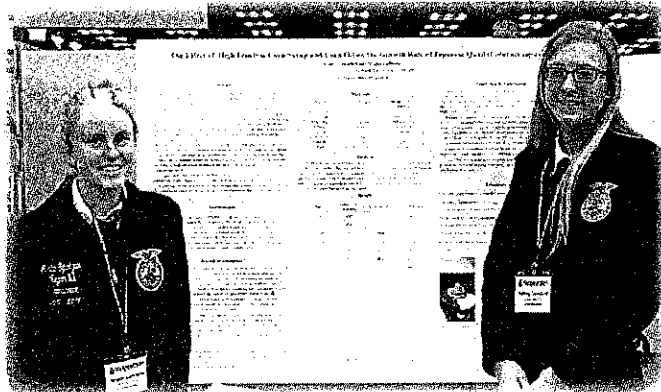

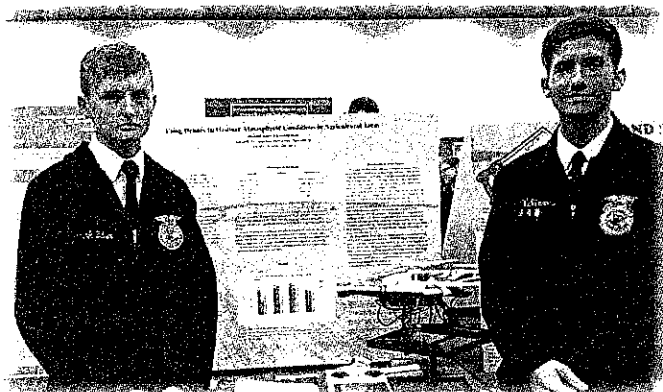

Middle School Cross Country

The Middle School Boys and Girls Cross Country teams completed their season at the final Big 8 Jamboree hosted by Springport. The Boys were trying to defend their Big 8 Championship from 2015 and the Girls were looking for their first Big 8 Title. The Boys finished short of defending their title with a third place finish. However, Nehemiah Adams, Jacob Rickwalt, Cole Magda, and Xavier Layher all placed in the top 20 for the Comets. The Lady Comets finished in a tie with Athens after the first four runners from each team crossed the finish line, leaving the fifth runner to determine the fate of each team. Fortunately,

Haley Owens crossed the line before Athen's fifth runner locking up the 2016 Big 8 Title for our Lady Comets. Tiffani Larder and Madison Magda finished in the top ten earning medals. Cheyenne Ewers and Alice Hughes finished inside the top 20 helping secure the victory.

Homecoming

BY: Karlee Barnhill (student)

Whether it was spirit week, the Friday assembly, or the lead up to the football game, this year's homecoming festivities were a great success.

Throughout the week students walked the halls supporting their favorite colleges, dressed as superhe-

roes, or showing their school pride by wearing black and orange. Face paint, weird pants, and school spirit dominated the halls, and good times followed.

At the end of the day on Friday, high school students were treated to a pep assembly in the gym. All four grades competed in a variety of different games put on by the student council. Students who could not find a seat in musical chairs ended up taking pies to the face, while sleep-

ing bag races tested the agility and speed of freshmen through senior students.

Although the comet football team was defeated in a close game Homecoming night, the players gave their all and provided plenty of excitement for the fans. Regardless of the score, everyone was a winner after the game as students and players alike joined together at the homecoming dance for a night of fun and to recognize everyone on the homecoming court.

The court representatives for each class were:

Freshmen:

Carson Laney and Kenzie Wyatt

Sophomores:

Ethan Sorensen and
McKenzie Raymond

Juniors:

Jettson Behm and Sarah Dawson

Seniors:

Miranda Masarik and Jake Wilson
Payton Back and Shayam Patel
Johnni Collard and Adam Swope
Alexa Coburn and Zane Ballard

After a close vote, the student body chose its 2016 King and Queen: Jake Wilson and Payton Back.

Veterans Speech Contest

The Jonesville High School Social Studies Department participated in the annual Veterans' Day speech contest. Students in AP U.S. History or Elections 2016 described the importance of the holiday and what it means to them. From over 80 entries, the top ten finalists were selected by the high school Social Studies teachers. From these finalists, first and second place will be determined by the Jonesville American Legion. The finalists will be recognized during the November 11th ceremony and the top two will present their speeches to the community.

The top ten finalists are: Katherine Caldwell, Carter Clements, Sarah Dawson, Hayden James, Teya Nichols, Alivia Rebeck, Shane Smith, Josie Spolyar, Cassidy Taylor and Fred Yaniga. Congratulations to these students!

YEARBOOK THANKS

The JHS yearbook would like to say thank you to all of the business that purchased advertisements in this year's book especially our gold sponsors:

- Bryan's Garage
- County National Bank
- Gossage Eye Institute
- Interdyne
- Martinrea of Jonesville
- Olivia's Chop House
- Saucy Dog.

Jonesville High School News Cont.

Jonesville Juniors take the PSAT

BY: Xana Donazar (student)

On Wednesday October 25th juniors at Jonesville High School completed the PSAT exam. While the primary purpose of the PSAT (Preliminary Scholastic Aptitude Test) test is to prepare students for the SAT, performing well on the test can also open the door to more than 180 million dollars of National Merit Scholarships connected in some way to the test results.

"The exam wasn't easy," said Koryn Playford, a Jonesville junior, "but the questions were about things that we are actually learning, so it wasn't terrible."

Students took the assessment throughout the morning over a span of more than two and a half hours. The test has three parts: evidence-based reading (questions

about literature and social studies), writing & language (questions about expressing ideas and English), and math (questions about algebra and advanced math), as well as additional topics. Although the test is challenging, students are used to the rigor due to their day to day studies.

"In my opinion the most difficult part was the English portion, especially the section on reading comprehension," said Jensen Ballinger, another junior student.

The price of the exam was \$15, so not every Jonesville student took it. While those who did give the test a go were completing the exam, the other junior students remained in class for a normal day of learning.

Students are encouraged to take the PSAT as it allows them to experience the atmosphere of a high stakes test, while also preparing them for one of the many steps they will encounter during the college application process. While nerves run high during the test, most students appreciate the learning experience and look forward to receiving their results.

PSAT results will be released online by December 12th. Students can view these results by accessing their College Board accounts. In addition to the online reports, paper PSAT score reports will be distributed to the students by January.

When students receive their results, the hope is that they can utilize the information to improve their areas of weakness before taking the actual SAT, which will be given in the spring of 2017.

Pathways School News

COMETS IN ACTION

Comets In Action is a community service organization made up of Jonesville Middle School students. The purpose is to provide our students with opportunities to serve their community by donating their time, talent, and skills to make their community a better place to live, and to learn the value of helping others. Beginning in March our students will be doing projects to beautify our school grounds, downtown area, and by helping senior citizens do spring yard work. If you are aware of an opportunity for us to help, please call in to the Jonesville Middle School office at 517-849-3210, or call Mike Corey (CIA Advisor) at 517-250-2220. Our students walk to our work projects so the closer you are to the school the better. Thanks for letting us help out! GO COMETS !!!

Jonesville Pathways Career Preparation

Jonesville Pathways (formerly known as Phoenix Alternative School) is now open and providing opportunities to our

students by using innovative technology to guide students along one or more of our four educational pathways. We have a classroom program with an online curriculum, seat time waiver program helping students work online from home, an educational program for adjudicated youth in a residential setting, and a new Career Pathway program designed specifically to prepare students for the workplace. To complete the Career Pathway program students will:

- 1 - Develop a Professional Portfolio to include a letter of introduction, resume, letter of reference, thank you letter, training certifications, and other documents as determined.
- 2 - Participate in Talent Tours to area businesses.
- 3 - Assess their career interests, talents, skills and aptitude using the Career Cruising and JobFit online programs, and will relate those to available career pathways.
- 4 - Participate in Practice Interviews and demonstrate skills related to job search, selection, the interviewing process, proper dress and presentation.

5 - Be placed in Work Based Learning Opportunities with local businesses and employers to earn money as well as credit for school.

6 - Complete MIOSHA Safety Training and earn a Certificate of Completion.

If you are interested in Jonesville Pathways and would like more information about our school, please call the office at 517-849-7304 and ask for Principal Eric Swihart or Career Prep Coordinator Mike Corey. Mr. Corey can also be reached at 517-250-2220

Jonesville Pathways students touring the Lomar Machine and Tool Company in Horton MI to learn about assembly, tool and die, engineering, and supervisory jobs in a manufacturing setting.
